

CLAIMS

1. A portable light box, comprising:
 - a. a reflector assembly, said reflector assembly including,
 - i. a base having an upper peripheral edge defining an interior volume;
 - ii. a light source disposed within said interior volume; and
 - iii. a cover plate disposed over said interior volume;
 - b. a carrying case having a top portion and a bottom portion, said top and bottom portions movable between a first closed position and a second open position, said reflector assembly received in said bottom portion of said carrying case; and
 - c. a divider removably disposable within said carrying case.
2. The portable light box of claim 1 wherein said top portion of said carrying case is removably secured to said bottom portion of said carrying case.
3. The portable light box of claim 1 wherein said cover plate is translucent.
4. The portable light box of claim 1 wherein said divider comprises a palette having a plurality of recesses formed in an upper surface thereof for receiving items therein.
5. The portable light box of claim 4 wherein said palette includes an opening for grasping by a hand of a user to hold said palette during use.
6. The portable light box of claim 5 wherein said opening in said palette is

triangular.

7. The portable light box of claim 1 wherein said top portion of said carrying case includes an interior surface that includes a divider support to removably receive and support said divider within said top portion of said carrying case.

8. The portable light box of claim 1 wherein said light source includes at least one electric lamp electrically connected to an electric power source.

9. The portable light box of claim 8 wherein said electric power source includes a DC battery source.

10. The portable light box of claim 8 wherein said electric power source includes an AC power source.

11. The portable light box of claim 8 wherein said electric power source includes a DC battery source and an AC power source.
